

Feedback Trail

Map of the World!

This is the map of the world you are now a part of. This is the path that you can take to reach safety. However, it is not the path you have to take, go out there and explore the world, you never know what you will come across. Will it be Zombies, Bandits or even tiny robot vending machines.

The journey is yours, you can walk around like the king of the world or you can hide under every rock whenever danger comes by.
